

Sunpark 3-4082D Decorative Wall Lamp

Sunpark 3-4082D Decorative Wall Lamp. The Sunpark 3-4082D is designed for exterior applications in residential locations. The outdoor wall mount fixture in black powder-coated finish features die-cast aluminum construction and a polycarbonate lens for a fresh modern look. The polycarbonate lens with aluminum housing allows for uniform lighting distribution. This wall mount fixture features an optional built-in photocell. Photocells improve the security and safety of your home, automatically turning on lights when it gets dark. Installation is traditional, quick and easy! This light comes in two wattages with their corresponding light outputs, so you can use the same size fixture in different mounting heights and keep the lighting cohesive on your home!
