

MRR2-G – REPEATER & AWAY EMULATOR

This is the Repeater & Away Emulator. The Repeat and Away Emulator records the normal usage of lights throughout the home and plays them back while homeowners are away. It also extends the range between the controller (LC7001) and a connected device by 100 ft. per repeater. Up to two repeaters are supported for a maximum coverage distance of 300 ft.

Everyone wants a home that's a step above ordinary.
